EDUCATION

Georgia State University - Atlanta GA	Aug 2022 - July 2025
- Bachelor of Computer Science - Relevant Coursework: Software Engineering, Data Structures, Programming Language Concepts - Pursuing a Data Science Certificate - Fundamentals of Data Science, Database Systems, Big Data, Data Mining	April 2025

EXPERIENCE

Upcoming R&D Intern at Manhattan Associates	May 2025 - Aug 2025
Set to join the Research & Development to explore supply chain optimization, software engineering, and data analytics.	
Full Stack Developer Appletree Management Intern	Aug 2024 - Dec 2024
- Collaborated with a team of engineers to develop and maintain full-stack web applications using React, Flask, and SQL - Streamlined user interactions by implementing HTML, CSS, and Python. - Managed code collaboration and version control using Git, ensuring integration of new features.	
Web Application Developer Appletree Management Intern	Feb 2023 - Aug 2023
- Contributed to the development of a cloud-based customer relationship management. - Integrated secure electronic document payment processing into a WordPress-based platform. - Leveraged Git for efficient branching and merging workflows, and utilized Oracle Database for data management.	

PROJECTS

WiseFin ReactNative, Python, MySQL, JS, CSS, HTML (Expected Completion: April 19, 2025)
- Designed and led the development of a cross-platform mobile application for comprehensive financial management. - Implemented key features: AI chatbot, receipt scanning (OCR), Natural Language Processing, and Plaid Sandbox API.
Tenant Portal Python, HTML, CSS, JS, SQL
Developing a user-friendly portal to streamline communication between property managers and renters.
Settlers Of Catan Python - Tkinter
Developed a digital version of Catan, recreating game mechanics and user interface for an interactive experience.
Data Science Projects Python
- Conducted end-to-end data analysis projects, transforming raw datasets into actionable insights. - Performed data cleaning, visualization, and statistical analysis to support data-driven decisions. - Implemented humanitarian supply chain optimization strategies to develop a system that utilizes historical and real-time data to efficiently route humanitarian aid.
Game Development Java, Eclipse
- Supported a group of 25 users with help desk-type tasks as a Java-based Administrator. - Created software additions to add extra functionality to Minecraft without changing the fundamentals of the game.
C Projects C, C++
Developed functional projects, including a Grade Management System and engaging mini-games like Flappy Bird.

SKILLS

- Software** - Eclipse, VSCode, Visual Studio, MySQL, Unity, ReactNative, Flutter, Firebase, Tkinter
- Programming** - Python, SQL, PL/SQL, C++, C, Java, HTML, CSS, JS
- Hardware** - Custom-built high-performance PCs for gaming and machine-learning applications
- Data Science** - Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, TensorFlow, Keras, PyTorch

CERTIFICATIONS

Oracle PL/SQL (Exam 1Z0-149) - Udemy Certification	2023
Introduction to Java by Learn Quest	2023
MTA: Software Development Fundamentals	2021
Certification offered by Microsoft, signifying fundamental Software Development knowledge.
